

Arlington Drive road closure scheduled to begin Monday Nov. 27 as part of bioswale project

As construction begins on the new Arlington Drive Improvement Project, Public Services announced that grading, roadway and storm drain construction is scheduled to start on Monday, Nov. 27, 2017, through March 15, 2018, closing the south half of Arlington Drive from Gate 5 at the OC Fairgrounds/west end of TeWinkle Park to Newport Boulevard.

Only westbound traffic will be allowed in this area, but two-way traffic on Arlington Drive between Fairview Road and Davis Magnet School will be maintained.

Residents are asked to please take a detour around the project site and use alternate routes for eastbound travel. City staff appreciates the public's patience and cooperation while the project is under construction.

The city has contracted with Sully-Miller Contracting Company to construct the Arlington Drive Improvements Project, which includes roadway improvements, new concrete multipurpose trail along the south side of Arlington Drive, new underground storm drain system, vegetated bioswale, and roadside beautification including new landscaping and water efficient irrigation systems.
