

Mesa Water District working to restore water service in several locations

Mesa Water District crews are working Wednesday Aug. 30 to repair several water main breaks that caused loss of water service in areas throughout the city.

The first main break happened on Tuesday evening at Costa Mesa Street and Orange Ave, Costa Mesa: Water service was restored by 10 p.m. and crews were still cleaning up on Wednesday.

On Mendoza Street, affected residents have been notified of a water main break and crews are working on restoring service. Mendoza is anticipated to have restored service by 3 p.m. Wednesday.

On Airport Loop reports are that water service is off for two commercial buildings. Mesa Water District staff is talking to customers there and crews are on site assessing.

Water service is on along Meyer Place but will be turned off to make repairs Wednesday. Mesa Water will notify school and residents.

For more information please visit the Mesa Water District website [here](#).

Networking pays off for IT's Swanson as he gets City Manager Leadership Award

City Manager Tom Hatch presented IT Network Administrator Lloyd Swanson with this month's City Manager Leadership Award at the Meet and Greet employee get together on Thursday Aug. 24.

"Lloyd has a critical job when it comes to supporting the technology needs of City Hall staff," Hatch said. "I admire him for his knowledge, patience and problem-solving abilities. His commitment to doing excellent work makes him a great role model for all of us here and this is just an opportunity to thank and honor him for his dedication."

Swanson joined the City of Costa Mesa in December of 2000 as an Information System Specialist and was assigned to the Police Department until June 30, 2003, when he moved to City Hall.

In May of 2005, his title was changed to Network Administrator.

Swanson excels in customer service and genuinely loves helping users with any problems.

At one point, Lloyd was single handedly supporting both the City and the Public safety system, which included being on call 24/7 for six months.

Prior to working in Costa Mesa, Swanson was hired by the Newport Beach Police Department in 1993 as a part-time Parking Control Officer. His IT career began later in 1997 as he started taking information technology courses at Coastline Community College.

With that technical knowledge, he was later transferred to the IT Department of the Newport Beach PD.

Swanson graduated in 1991 with a Bachelor of Science in Public Administration (Urban and Regional Planning) from USC.

In addition to Swanson, Hatch honored several newly hired and promoted employees as well as one who is retiring.

In the new hire area, Hatch welcomed Eric Arellano, who is an intern in the City Manager's Office, Parks & Community Services employees Amanda Fenner a new Recreation Leader IV, Vanessa Orellana a Recreation Leader II and Alexander Schmitten Recreation Leader III.

From the Police Department he welcomed new Animal Control Officer Amanda Clover and new Crime Scene Specialist Robert Rueda as well as Michael Sampson a new Associate Engineer with Public Services. He also honored Parks & Community Services employee Allison Burch for her promotion to Administrative Secretary.

Finally, Hatch took a special mention to bid farewell to his

outgoing Executive Administrator Kelly Shelton, who is retiring on Aug. 31.

“I love Kelly and I am going to miss her very much,” Hatch said.

Area on the Eastside scheduled for resurfacing of streets starting Thursday Aug. 24

A slurry seal resurfacing treatment that provides pavement protection from weathering will be applied in an Eastside neighborhood on Thursday Aug. 24 and Friday Aug. 25.

Access through this area will be limited during the working hours of 7 a.m. to 5 p.m.

Click [here](#) to view a map that shows the Area 25 section that will be resurfaced. The area is bordered by 22nd Street to the south, Newport Boulevard to the West, Santa Isabel Avenue to north to the eastern city limits.

“No Parking” signs have been posted in the neighborhood, indicating the dates and times in which vehicles may not park, drive, or access the streets.

Cooperation in observing all traffic control and parking restrictions will be greatly appreciated and will help in expediting the construction and yielding a better finished product.

A challenge with the slurry seal treatment is minimizing the amount of tire marks upon re-opening of the streets. Slurry seal is susceptible to deformation the first week following construction.

Therefore, the city is asking for everyone's assistance when driving on these slurried streets, to avoid making sharp turns into and out of driveways and intersections.

Vehicle power steering puts tremendous force on the pavement with little effort from the driver. Whenever possible, and safe, please make wide, fluid turns into and out of driveways and intersections to avoid digging into the slurry.

Your assistance is greatly appreciated.

City launches new web page to help residents report aircraft noise and concerns

In response to increased concerns about noise and flight patterns of aircraft flying in and out of John Wayne and other local airports, the city has created a new page titled, Airport Noise and Concerns, that provides residents with important resources for monitoring air traffic.

By clicking on the page here , residents can call JWA directly and the page provides access numbers and websites for the Federal Aviation Administration and Long Beach Airport.

City staff continues to work with county and regional officials to stay up to date on any changes regarding air traffic and noise.

Edison to perform infrastructure testing on the Eastside beginning Monday Aug. 21

Southern California Edison crews will be working in certain Eastside Costa Mesa neighborhoods to make improvements to the electrical grid beginning Aug. 21 and extending through Friday Aug. 25.

The work will commence typically between the hours of 8:30 a.m. to 3:30 p.m.

This maintenance work is important to ensure the power grid is supported with up to date technology and reliability for continuous improvement.

Vernal pools to get some

protective fencing soon

Public Services, in collaboration with the United States Fish and Wildlife Service, has completed bid documents for the Fairview Park Vernal Pool Fencing Project.

Per the Fairview Park Master Plan, all seven vernal pools on the west side of the park, and one on the east side, will be protected by installing cable rail fencing. Approximately 6,500 linear feet of fencing will be installed in the fall of 2017.

The Fairview Park vernal pools are home to small aquatic crustaceans, the San Diego and Riverside fairy shrimp (*Branchinecta sandiegonensis* and *Streptocephalus woottoni*), which are listed as federally endangered species.

For more information on vernal pools and other biological resources at Fairview Park, please visit the City's website at <https://www.costamesaca.gov/index.aspx?page=1576>.

Caltrans to close a connector and on-ramp for paving work on Friday Aug. 11 through 4 a.m. Aug. 12

Caltrans will be closing both the Southbound SR-55 connector to the Northbound I-405 and the Bristol Street on-ramp to the Northbound I-405 this Friday evening, Aug. 11 from 10 p.m. until 4 a.m. Saturday Aug. 12 for AC paving.

Caltrans appreciates the public's patience while this work is being conducted.

Detour signs will be posted to alert motorists of the closure.

For more information, you may contact the District 12 Public Information Office at (657) 328-6000 or log on to the Caltrans website at www.dot.ca.gov/dist12.

Community comes out to support groundbreaking event for new library and community center

Mayor Katrina Foley, Mayor Pro Tem Sandra Genis and City Council Members Jim Righeimer and John Stephens joined city staff to and other members of the community to officially break ground on the new Lions Park Projects last Friday.

Also in attendance were state Sen. John Moorlach, Chairwoman of the Board of Supervisors Michelle Steel, Supervisor Second District, project architect Steve Johnson as well as Orange County Librarian Helen Fried.

The \$36.5 million public works projects will include a new 20,000-square-foot Donald Dungan Library as well as the refurbishment of the existing library into a new Neighborhood Community Center and many park improvements.

About 150 members of the public attended the event.

Julie Colgan presented with July's City Manager Leadership Award

City Manager Tom Hatch awarded Development Services Administrative Secretary Julie Colgan with the City Manager Leadership Award at the July Meet and Greet.

"Julie has the important job of being the recording secretary for the Planning Commission meetings," Hatch said. "Her organization skills and ability to remain cool under pressure are impressive traits and I appreciate her professional style very much."

Colgan started with the City as an Apple temp in April 2012 and was offered a part time administrative secretary position in August of 2014 and later promoted to full time for the Development Services Department in November 2015.

As the Recording Secretary for the Planning Commission she has to make sure the various types of public notices occur on time, that agendas and staff reports are readied and copied and sent off to the Commission and other parties, as well as attend all the meetings and prepare the minutes.

Colgan wants to make sure that everyone knew that it's not possible for her to do her job without the support and companionship of her colleagues.

In addition to honoring Colgan, City Manager Hatch welcomed several new employees and congratulated others for their

promotions.

New employees included Barry Curtis, the city's new Economic & Development Services Director; Issam Shahrui, the new Building Official; and Courtney Harvey, Office Specialist in the Finance Department.

From Parks & Community Services, he welcomed Zander Fletcher and Elise Price, two new Recreation Leader I hires and Kianna Gicale a new Recreation Leader II. The Police Department's Mayra Avalos, a new Police Records Technician was also welcomed.

In the promotions category, Hatch congratulated Ana Baca, the new Revenue Supervisor in the Finance Department; Katelyn Walsh, who was promoted to Assistant Planner Economic & Development Services; and Theresa Byrne, promoted to Recreation Leader III in Parks & Community Services.

Lions Park Projects Groundbreaking Ceremony set for Friday July 28

The City will hold an official Groundbreaking Ceremony this Friday July 28 at 10 a.m. for the planned Lions Park Projects.

The \$36 million public works projects will include a new 20,000-square-foot Donald Dungan Library as well as the refurbishment of the existing library into a new Neighborhood Community Center.

City Council members, staff and other dignitaries are expected to attend, including the architect of the project Steve Johnson as well as Orange County Librarian Helen Fried.

The Boy Scout Troop No. 339 will be the Color Guard that morning.

Hop aboard new shuttle designed to take workers and visitors to local shopping and dining venues

A ribbon-cutting ceremony to celebrate the new Costa Mesa Line bus shuttle will take place Friday July 14 at 8:30 a.m. in front of the Experian building at 475 Anton Boulevard in Costa Mesa.

The new bus shuttle is the culmination of an OCTA grant

obtained by the city as well as a partnership with Anaheim Resort Transportation and Travel Costa Mesa. [Click here](#) for details about the Costa Mesa Line schedule.

The ART-Costa Mesa Line is free to the public and began operating daily on a fixed route schedule on June 15. It offers area businesses, employees, residents and visitors an easy and economical transportation option and is designed to reduce traffic, and enhance the dining, shopping and the arts experience in Costa Mesa.

This service transports riders on 30-passenger (CNG) Compressed Natural Gas ART vehicles along nine fixed-route stops covering South Bristol Street between South Coast Metro's business and residential areas, South Coast Plaza, The LAB, The Camp, and Costa Mesa's cultural arts centers.

Mosquito with West Nile virus discovered in section of Fairview Park

A mosquito infected with West Nile virus has been found in Fairview Park, according to an announcement last week by the Orange County Mosquito and Vector Control District.

The mosquito with West Nile virus was discovered in a Vector Control mosquito trap in a drainage ditch at the south end of Fairview park, officials confirmed. The area has already been treated for mosquitos and inspectors will be closely monitoring the area for any additional findings.

Mayor Pro Tem Sandra Genis, who is also a Vector Control

District trustee, said residents can take simple precautions to avoid mosquito interaction.

“Remember even the smallest amounts of standing water can allow mosquitoes to breed,” she said. “So please, check your yards and property for any sign of standing water and dump it or drain it.”

According to Vector Control, West Nile virus is a mosquito-borne disease that was originally found in Africa. In 1999, it was detected in the eastern United States; since then the virus has spread throughout the United States and is well established in most states, including California.

Most often, West Nile virus is spread by the bite of an infected mosquito. [Click here to learn more about the virus.](#)

The best way to avoid West Nile virus is to avoid being bitten by a mosquito. Vector Control recommends taking these precautions:

- Eliminate any standing water around your house.
- Make sure all window and door screens on your house are in good repair.
- Wear a repellent containing DEET®, Picaridin, Oil of Lemon Eucalyptus, or IR 3535.
- Contact the Orange County Mosquito and Vector Control District to report dead birds or neglected pools.
