

# **Red Hill bridge closure extended until mid January of 2017**

Caltrans has announced it is extending the full closure of the 405 Freeway/Red Hill Avenue Overcrossing from Main Street to Pullman Avenue until mid-January of 2017 because of rain saturation to the hillside. This closure is part of a \$9 million Embankment Stabilization project in the cities of Irvine and Costa Mesa.

Changeable Message Signs will be used to alert motorists to the closure extension. Motorist may experience delays and are advised to avoid the area, use alternate routes, and check traffic conditions before traveling.

The project benefits are to reinforce the underlying soil embankment as well as construct new retaining walls along the local arterial surface street system. Completion of the project is expected in mid 2018. For more information Caltrans Red Hill project [click here](#).
